Summary

Computer Engineering undergraduate with hands-on experience in full-stack development. Seeking software developer or internship opportunities to contribute to real-world applications using strong problem-solving and development skills.

Education

Zeal College of Engineering , SPPU University

B.E. in Computer Engineering : CGPA 7.79/10

Nov 2022 – Present

📍 Pune, Maharashtra

Mahatma Gandhi Junior College

Senior Secondary School : Percentage 61%

June 2020 – April 2022

📍 Khed, Pune

Khed Taluka Education Society School

Secondary School : Percentage 81%

Grade 1 – March 2020

📍 Khed, Pune

Skills

Languages: Java, SQL, JavaScript

Frontend: React.js (Hooks, Components), HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Databases & Tools: MongoDB, MySQL, Git, GitHub, Postman, VS Code, Render

Core Concepts: OOP, DSA, Collections, Multithreading, Exception Handling, Computer Networks, JDBC

Experience

Hruta Solutions Pvt. Ltd. - Software Developer Intern

Jan 2026 – March 2026

- Worked on frontend and backend development tasks using Java, JSP, Servlets, and MySQL in a team environment.
- Implemented database operations, core business logic, and REST-based functionalities for application features.
- Assisted in designing application modules, ensuring smooth data flow between frontend and backend systems.

Projects

Forever | Full Stack E-Commerce Platform

[Link](#) | [GitHub](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, Stripe

- Built a full-stack e-commerce web application with user shopping features, admin dashboard, and secure online payments.
- Implemented role-based authentication, RESTful APIs, and Stripe payment gateway using JWT and Express.js.
- Designed responsive React.js interfaces integrated with MongoDB for products, orders, carts, and users
- Built admin features for product CRUD operations, order status management, user monitoring and Improved performance and user experience through reusable React components.

BookMyCNG | Smart CNG Reservation Platform

[GitHub](#)

Tech Stack: Java, JSP, Servlets, MySQL, HTML, CSS, JavaScript, JDBC, JWT

- Developed a full-stack web application to enable online booking of CNG refueling slots, reducing wait times at fuel stations.
- Implemented user, admin, and pump-owner modules with authentication and role-based access using JWT.
- Integrated MySQL database to manage 1000+ booking records, pump details, and transaction reports.

AgencyAI | React-Based Frontend Application

[Link](#) | [GitHub](#)

Tech Stack: React.js, Vite, Tailwind CSS, JavaScript

- Developed a modern agency-style frontend application using React.js and Vite with a focus on clean UI and performance.
- Built reusable, component-based UI and responsive layouts using Tailwind CSS for cross-device compatibility.
- Deployed the application on Render with GitHub integration, enabling automated builds and continuous deployment.

Certifications & Achievements

EY GDS & AICTE – Full-Stack Web Development - MERN Stack (Feb–Mar 2025)

Udemy – MySQL Database Design & Data Analysis (2025)

NexAi2024 – Coding Marathon & Problem Solving (2024)
